"Silver Bell Waltz" is a perfect Christmas piece for choirs looking to move up from beginning music. There are several bell changes but always with plenty of time to make them. While equally effective on handchimes, a few techniques, such as TD and echo, will need to be adapted.

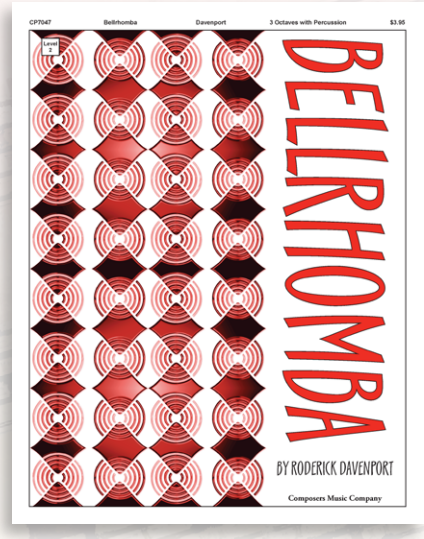
MCP7047 **$3.95**



"Bellrhomba" is another interesting arrangement from RodeRick Davenport that young ringers especially will enjoy. Make it unique by working out some interesting rhythms to use in the improvisation section and alternating the rhythm instruments and handbells on measure 36. This one is a lot of fun and would make a great encore.

Jubilare

Kathleen Wissinger

3 oct HB • Level 2 • Rating: Easy-Med
w/ opt 3 oct HC

MCP7046 **$3.95**

This cheery original is ideal for choirs trying to 'step up' to a successful eighth note experience. The patterns much easier than expected, because the eighth note pairs have been carefully assigned to each position. It sounds more complex than it actually is and is appropriate for worship, school, concert or festival. The music is laid out in ABACA format, resembling a rondo.
